Please find herewith details emerging as we find them currently for your speediest response and assistance:

1. 250 confirmed dead
2. 1,250 reported missing, feared dead
3. 800 injured
4. Water levels still rising

The site which the Government of Sebedoh has most graciously offered to LEAD to accommodate the affected people holds 20,000 people, all the wretched souls remaining alive in the area. From today, DisCom will transport by private bus and military truck 2,000 people per day every day to Vegas C until the area is evacuated – none whom remain alive shall remain in the area due to danger of bandits and disease.

The Office of the Sebedohan Vic President through DisCom will coordinate all search and rescue but everyone found will be sent to the site forthwith for an indefinite time until it is decided to be appropriate to return.

There shall be one visit by aid agencies to the flood area today at 0945. Helicopter flights for those with security clearance will depart promptly from DisCom office, strictly no latecomers, nor those without accreditation or clearance, shall attend.

After this visit, there shall be no additional site visits bar DisCom's workers evacuating the area.

Sincerely,
